## Summary

Enthusiastic Full-Stack Web Developer with a solid foundation in Computer Science Engineering and practical expertise in building dynamic web applications using React.js. Proficient in Java, with strong problem-solving skills and a keen understanding of software development principles. Successfully completed an internship at Vorkinsta, contributing to real-world projects and gaining hands-on industry experience. Passionate about delivering high performance, scalable, and user-centric web solutions while continuously advancing technical skills in fast-paced, collaborative environments.

## Skills

**Programming Languages:** Java, C Programming, JavaScript, Python

**Frontend:** HTML, CSS, JavaScript, ReactJS, Tailwind CSS, Bootstrap

**Backend:** Express.js

**Database:** MongoDB, PostgreSQL

**Tools:** Git & GitHub, Supabase, Postman, Canva, Vercel

## Experience

### Full Stack Web Developer Intern, Vorkinsta

May 2025 – August 2025

Completed a focused three-month internship (May – August 2025) with a stipend of (INR)1,000/month, specializing in full-stack web application development using React.js, Tailwind CSS, and Supabase.

- Gained hands-on industry experience by building robust user authentication systems, interactive dashboards, and delivering responsive, user-friendly web interfaces.
- Developed modular, reusable frontend components leveraging React and TypeScript for scalable UI development.

## Projects

### • Hotel Management System

May 2025 – Present

Developing a full-stack web application for hotel operations, including table booking via QR code, customer authentication through OTP, order management, chef and admin dashboards, billing, feedback collection, and analytics. Built with React, Tailwind CSS, and Supabase.

### • Parking Reservation System UI

Mar 2025 – Apr 2025

Developed a web-based application that allows users to book parking slots in advance. Implemented real-time slot availability, user authentication, slot booking and cancellation features using React.js, Tailwind CSS, and Firebase. Enhanced user experience with a clean UI, secure login, and dynamic reservation flow.

### • E-Commerce Website

Dec 2024 – Feb 2025

The e-commerce website is a full-stack application with React.js for the frontend and Express.js with MongoDB for the backend. It features product browsing, a shopping cart, and secure user authentication, offering a seamless and responsive shopping experience.

## Education

**B.E. in Computer Science Engineering**, S.A. Engineering College, Chennai, India  
CGPA: 9.02

2022 – Present

**Higher Secondary Certificate**, Padma Sarangapani School  
Percentage: 79.4%

2022

**Secondary School Certificate**, Padma Sarangapani School  
Percentage: 89.3%

2020

## Certifications

- **GUVI - React.js** (Mar 16, 2025)
- **Great Learning - Java** (July 2024)
- **Pearson MePro Level 8 (English Proficiency Certificate)** (Sep 17, 2024)
